- The amount and intensity of mist produced may vary, factors that affect this include water type, humidity, temperature, air currents.
- The diffuser will auto power off when water runs out.
- Apply only 100% natural essential oil. If they contain chemical ingredients, flavors or impurities, it may cause damage to the product.

## ④

**Accidental Leakage**

In the event of the unit being knocked over or tipped during use, please follow the steps below to avoid malfunction:

1. Unplug the unit and remove the cover.
2. Pour out any remaining water from the water tank.
3. Shake the unit gently to drain water, and then allow it to air dry for at least 24 hours.

5

## Maintenance

After using 5 - 6 times, or 3 - 5 days, please clean products as per instructions below:

- Unplug the unit and remove the cover.
- Pour out any remaining water from the tank.
- Add a little warm water with some mild kitchen detergent to clean and wipe it dry with a cleaning cloth gently.
- Do not use other acids or enzymes detergent, as this may cause damage to the machine.

## ⑥ Safety Rules

---

**Please check below to avoid malfunction of the unit:**

- Do not switch on power if the water tank is empty.
- Clean regularly as per Maintenance instructions.
- Always unplug before cleaning or maintenance.
- Do not pour water out through the air outlet.
- Use a measuring cup to add water into the tank, do not fill water directly from the water pipe, to avoid overflow.
- Always keep a stable and flat surface. Do not put on carpet, duvet or unstable areas.
- Do not let it mist directly to furniture, clothing, walls, etc.

- Keep away from direct sunlight, heat sources, air conditioners or fans.
- Keep away from electrical equipment, such as TV or audio equipment.
- Rest 60 minutes to restart after a long usage to avoid potential damage of the atomization piece.
- Do not use sparkling water. Tap water and mineral water are usable.
- Do not move the product while it's working or touch any part of the unit with wet hands in case of electric shock.
- Keep away from children and pets.
- In case of abnormal smell, sound or heating, please refrain from usage.

## 7

**Troubleshooting**

If product doesn't work properly, please check the following table for some common troubleshooting reference:

- **Will not switch on or switch off**

Is there enough water in the tank?

- Please add water to the tank

Is the power cord connected properly?

- Please disconnect, check cables and re-connect carefully

- **Water leakage from product**

Cover and inner are not installed properly?

- Remove and reinstall correctly, so mist can be released freely.

Low temperature or high humidity?

- Under these conditions, the mist may condense quickly into water droplets.

● **No mist or abnormal mist**

Not enough water? Or too much water?

- Please add a suitable amount of water in the tank, water must never be filled over 200ml (MAX) line.

● **Dirt on the atomization piece**

- Please refer to maintenance instructions to remove and re-install correctly, so mist can be released freely.

● **Cover and inner cover not installed properly? Dirt on the air suction port on the underside of the base?**

- If there is too much dust on the air suction port, the mist will be restricted. Clean the area.
