## Young Founders Programme

Kuala Lumpur, 2 April 2022 – PlusVibes is the only Malaysian startup to enter the international fellowship, Westerwelle Young Founders Programme (YFP) based in Germany.

"I wasn't expecting to be the few people to have had this golden opportunity but I will surely make the most out of it," said Madiha Fuad, founder of PlusVibes.

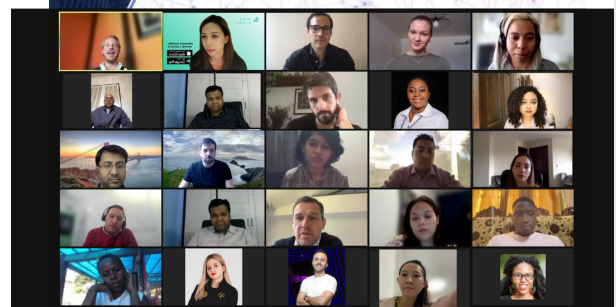

She added, plenty of excitement will be coming forth this next six months however it is something that she is more than ready to dive straight on alongside the other 24 founders from Latin America, Africa and Asia.

The fully funded fellowship programme comprises of a six months mentorship, peer learning, buddy programme, experts session and access to business prospects with a five-day Berlin conference for the top ten best performing founders. They will have the opportunity to connect with the world's most successful businessmen and mentors, all of which are crucial to the success of every entrepreneur.

"I am proud to carry the Malaysian name during this fellowship whilst being able to advocate my passion in making mental health support accessible for all,"

This fellowship will allow 25 leaders of emerging and developing markets to create a better future for all, offering targeted support to scale founders' ventures and develop leadership abilities.

Established in 2020, PlusVibes has currently close to 20,000 mobile application users and are aiming to provide accessible mental health support services for all. Some of their current clients include companies in banking, property and HR management. The company provides B2B services through mental health support, data analytics and workshops.
